CARR - 575

RINEHART TENANT HOUSE -- ROSENTHAL HOUSE

Private

Uniontown Road

Early 19th century

When Westminster expanded its western boundary in 1977, it took in large tracts of what was once open farm land. Along with these fields cam farmhouses, including this interesting stone structure on Uniontown Road. The western half of the thick-walled house certainly dates from well before 1860. Although it was probably a tenant house on the large farm of William G. Rinehart, local sources suggest that at one time it may have been used as a school.

After leaving the Rinehart-Wantz family, the farm and this house passed to the B.F. Shriver Company in 1910. Since 1947 the house, separated from the farm, has been a private residence.
